INTERNATIONAL SEARCH REPORT

PCT/IL03/003

BOX II. OBSERVATIONS WHERE UNITY OF INVENTION IS LACKING

Group I claim(s) 1-65, drawn to a method of making microlenses.

Group II, claim(s) 66-87, drawn to microlenses.

Group III, claim(s) 88-95, drawn to optical devices.

Group IV, claim(s) 96-221, drawn to methods of doping glass and making microlenses.

The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the feature common to all four claim groups, i.e. non-copper doped glass microlens, is not novel because it is disclosed by US 5,604,635 A (Lowandy) in col. 6, lines 5-27 and 52-68. Therefore, there is no corresponding special technical feature of all four claim groups.
